CUSTOM AND READY MADE ACRYLIC SCREENS & PROTECTIVE EQUIPMENT

Progressive Plastics fabricate clear acrylic screens and equipment to prevent the spread of the COVID-19 virus. Applications include retail counters, food storage protection, workplace separation, vehicle screens, and medical equipment

READY MADE ACRYLIC SCREENS

Our standard pre-fabricated freestanding screen measures 1000 x 800mm and includes a cut out for eft-pos terminals. The cost of a 6mm thick screen is **\$380+GST** ex our workshop in Dunedin.

CUSTOM MADE & INSTALLED ACRYLIC SCREENS

We can fabricate custom made screens from a range of plastics to fit your work environment. This includes counters, receptions, lunch room separation, vehicle screens and medical equipment. We can also install by arrangement.

SUPPLIED AND INSTALLED TO ALL INDUSTRIES

Since the COVID-19 virus outbreak we have fabricated shields and equipment for district health boards, pharmacies, service stations, dairies, meat processors, medical clinics together with a range of industrial and commercial businesses

For enquiries and orders please contact us on 03 477 6999 or admin@progressiveplastics.co.nz. For custom made requests, please include a sketch or photo's with required dimensions
