MATERIAL SPECIFICATIONS

LDPE LOW DENSITY POLYETHYLENE

FEATURES

Natural colour
Fully recyclable material
Shapes neatly with the meat avoiding bridging or pockets for purge accumulation occurring on vacuuming
Good burst strength and puncture resistance.

TYPICAL USES AND CARE

For use inside vacuum and shrink bags as a bone protection system. Suitable for chilled and frozen meats
Temperature limits - minus 30°C to plus 100°C
Storage in clean, dry, cool areas out of direct sunlight
Shipped in sealed cartons with plastic bag liners, wrapped on pallets.

APET AMORPHOUS POLYETHYLENE TEREPHALATE

FEATURES

Clear, high gloss with no stress whitening. Available in black and other colours on request.
Fully recyclable material and manufactured using recycled APET
Low moisture vapour transmission rate and good barrier properties
High impact durability and rigidity together with exceptional hinge and fold strength
Chemical, oil and grease resistant.

TYPICAL USES AND CARE

For use as a base tray inside vacuum and shrink bags or with an overwrap
Suitable for chilled and frozen meats, smallgoods, seafood, poultry and produce
Temperature limits - minus 35°C to plus 95°C
Storage in clean, cool dry areas
Shipped in sealed cartons with plastic bag liners, wrapped on pallets.

RECYCLED CONTENT

Trays are available in either virgin APET or various levels of post consumer recycled (PCR) rPET. Details available on request.

BARRIER

Our VSP and MAP trays are produced in partnership with Plantic Technologies using PLANTIC™ R sheet. This allows us to offer trays that are made from a combination of recycled PET together with a renewably sourced plant based core of PLANTIC™ HP. This core has exceptional gas barrier properties resulting in long shelf life for food products. These trays are fully recyclable in the usual PET waste streams.

COLOURS

Rigid trays are generally available in clear and black. Other specific colours are available on request.

All products are manufactured to meet EU and US FDA packaging compliance regulations. Details are available on request.
